- 1. Showered**
- 2. Blessings**
- 3. diverse**
- 4. plateaus**
- 5. coastline**
- 6. tributaries**
- 7. strips**
- 8. peninsula**
- 9. surrounded**
- 10. notice**

Define & FIB:

Learn from book

Answer these questions:

Q1. Write the difference between hills and mountains?

Ans. A hill is a small and a natural elevation of the Earth's surface with a round top. A mountain has peaks or sharp tops.

Q2. Why are Northern plains good for growing crops?

Ans. 1) Northern plains are good for growing crops because the plains are covered with fertile soil brought by the rivers.

2) This makes the soil suitable for growing many crops.

Q3. Why is the Southern part of India called a peninsula?

Ans. Southern part of India is called a peninsula because it is surrounded by water bodies on three sides.

Q4. What is the weather like in the Great Indian Desert?

Ans. The Great Indian Desert is a hot and dry place with very little rainfall.

Q5. Name the two island groups of India.

Ans. The Andaman and Nicobar Islands and the Lakshadweep islands are the two major island group of India.

Think and answer:

Q6. Why do more people live in the plains than in the mountains?

Ans. More people live on plains as the plains have suitable climate and fertile soil for growing crops.

Activity:

Q7. Draw following landforms in notebook.

Ans.
