

# St. Andrews Scots Sr. Sec. School

9th Avenue, I.P. Extension, Patparganj, Delhi – 110092

Session: 2025-2026 - Worksheet

**Class: VIII**

**Subject: Science**

**Chapter: Some Natural Phenomena**

## Q.1.Fill in the blanks:

- a. Phenomena that occurs naturally like floods, thunderstorms and lighting is known as \_\_\_\_\_.
- b. An atom is made of up of positively-charged particle that is found inside the nucleus is called \_\_\_\_\_.
- c. The molecules that are electrically charged are called \_\_\_\_\_.
- d. If body is positively-charged, it has less \_\_\_\_\_.
- e. \_\_\_\_\_ is a device that measures the presence and type of a charge present inside an atom or molecule.

## Q.2.State whether the statement is true or false:

- a. An electrical fish eel is found in India, which produces 100 volts of electricity.
- b. Lighting conductor is a device used by the people on the top of the buildings to save them from lighting.
- c. Seismograph is used to measure the level of earthquakes.
- d. We live in the Earth's crust.
- e. The formation of lithosphere consists small rock plates called tectonic plates.

## Q.3.Multiple choice questions:

(a)What do we call the method of charging a non-charged body by transferring some charge due to contact?

- i. Conduction
- ii. Thunderstorms
- iii. Lightning
- iv. Natural Phenomena

(b)Which natural phenomena causes tsunamis and landslides?

- i. Friction
- ii. Flood
- iii. Thunderstorms
- iv. Earthquake

(c)Which of the following is the upper surface of the Earth?

- i. Mantle
- ii. Crust
- iii. Inner Core
- iv. Outer Core

(d) Which of the following is the most threatening state by earthquake?

- i. Tamil Nadu
- ii. Maharashtra
- iii. Kashmir
- iv. Assam

**Q.4. Answer in one word:**

- a. An electrical charge atom or molecule.
- b. When north and south poles of two magnets get closer to each other.
- c. Transferring of charge to an uncharged body through charged body by physical contact.
- d. A device that is used to detect the availability of the charge and the type of the charge in the body.
- e. The surface of the earth where we live.

**Q.5. Very short question answers:**

- a. List three states in India where earthquakes are more likely to strike.
- b. How will you charge a glass rod by the method of friction?
- c. What is a flash of light which occurs in the sky during the rainy season called?
- d. Name the scientist who showed that lightning and the spark from your clothes are essentially the same phenomena.
- e. What type of electric charge is acquired by a rubber balloon when rubbed with woollen clothes?
