Fruit Lollipop Activity

Make a fruit lollipop with toothpick and fruits like mango, strawberry, banana, apple etc.

Creating fruit lollipops is a fun and creative way to encourage healthy eating habits, especially among children. It's an opportunity to showcase the importance of fruits as nutritious snacks packed with vitamins, minerals, and fiber. By incorporating fruits into treats like lollipops, you can make them more appealing and enjoyable, while still providing all the essential nutrients that fruits offer.

Helping towards Nature

Use a bird feeder like small, bowl filled with water . Keep it in balcony or terrace for the bird to drink.

Adding water to a bird feeder's bowl is a great way to attract more birds, especially during hot weather when they need to stay hydrated. It's also important for birds to have a water source for drinking and bathing. Just make sure to clean and refill the water regularly to keep it fresh and inviting for them.
