Session: 2023-2024

Class: VII

Instructions :

1. Written Homework of all the subjects is to be done as per the instructions.
2. The work must be done in a very neat and presentable manner..

Subject wise homework

ENGLISH

Q1. Tomorrow your school is celebrating Teacher's Day. You have been selected for presenting a speech before teachers. Express your feelings and emotions in the form of diary entry in not more than 150 words.

Q2. You have just passed out from a school which is now celebrating its annual day. On this occasion, you have been invited to receive a prize for some past activity. Send an email to the principal regretting your inability to attend the function.

Q3. Do worksheet 8, 9 & 10 in your English notebook as uploaded on school website .

Q4. Revise and learn the P.A2 syllabus .

SCIENCE

Instructions:

- Do all the holiday homework questions in the activity file.
- Complete your science Q/A and worksheets and learn it.

Q.1. Read the passage and answer the given questions.

Human have two major organs that perform transport of materials. Organ 'A' is bean-shaped and dark red in colour lie just above the waist. It helps in 'removal of 'Q', a waste material from blood. The organ 'S' is the opening at the end of the urinary bladder through which the waste material is eliminated.

Organ 'B' lies in the chest cavity slightly tilted towards the left side. It pumps continuously and pours liquid 'C' into arteries and through very fine tube-like structure 'D' distributes the liquid to various parts of the body.

i)Identify A, S, B and D respectively.

ii)Explain the major functions of each of them.

iii)If the organ 'A' is damaged what is the alternative for it? Explain how it works?

Q.2. Activity: You must be knowing the distance of your market from your house. Observe the time taken by you in reaching the market and calculate your speed. Do this activity with different modes of transport. Draw a distance-time graph based upon your observations. What type of graph do you get? What inference do you get from the graph about the speed?

Perform this activity in guidance of your parents.

Q.3. Answer the following questions.

a) How is burning of candle a physical as well as a chemical change?

b) Jai was very fond of collecting coins of different metals. One day, he observed that the colour of silver and copper coins had changed. Explain reason of his observations.

c) What will happen if blood does not have enough platelets?

d) Why is water not used instead of mercury in thermometers when it is easily available to us?

e) Is food vacuole in Amoeba similar to the small intestine of human beings? How?
